

January 20, 2017

Dear Neighbor,

This letter is to notify you that PSE&G will be working in your area to repair an existing underground electric circuit. This repair activity will repair an existing pipe for our transmission circuit that runs underneath the Hackensack River, helping to ensure safe and reliable electric service to residents, businesses, and civic facilities throughout our service territory.

Construction activity is anticipated to begin on or about January 25, 2017 along the shoreline and in the Hackensack River near Henley Avenue. PSE&G will take every precautionary measure to preserve these areas throughout repair activities. This work is estimated to be completed by April, 2017.

Safety is our primary concern. PSE&G will partner with the New Milford Police Department to minimize any traffic concerns or inconvenience to the public. During construction, please refrain from going near our construction work zones. PSE&G anticipates working Monday through Friday from 7 a.m. – 5 p.m. Some of this construction activity may require 24-hour work and/or weekend hours.

We apologize for any inconvenience this may cause and thank you for your understanding as we improve electric service and reliability for the region.

If you have any questions or concerns, 1-866-337-5604 or visit our website [www.pseg.com/underground](http://www.pseg.com/underground)

Sincerely,

Tim Erway,  
Sr. Project Manager
