

To the residents of New Milford:

New Milford Volunteer Ambulance has had some tough challenges over the last year. From providing care through the COVID 19 pandemic, to assisting at fire scenes and the special calls like celebrating our residents' birthdays, our crews have put our town first and stepped up to provide all around care. NMVAC would like to thank the community for their continued assistance during these challenging times. Our volunteers remain dedicated to providing excellent service and support to all in need. We gratefully ask once more for your assistance – we are looking for new members to maintain the high quality care we provide. Training will be provided and the friendships you will make will be everlasting.

Come join us today. Contact us at info@newmilfordems.org for more information. We look forward to continuing to serve our wonderful town. Stay safe and wear your mask.
